

BRAGS SUIT FOR MANY THOUSANDS

Lieutenant Charles T. Wade of the Navy Starts an Action Against Magazine Co.

OFFICER NOT MENTIONED BELIEVES HE WAS DAMAGED IN REPUTATION.

New York, July 24.—Lieutenant Charles T. Wade, who as an ensign was chief engineer of the USS *Albatross* at the time of the explosion of the boiler on that craft, exploded, causing the death of more than sixty of her crew and injuries to forty-nine others, has filed a libel suit against the International Magazine Company, asking for damages in the sum of \$100,000. The plaintiff resides in New Jersey, and the defendant is a New York corporation, so the action is brought in the United States circuit court in this city.

The accident to the Bennington occurred in San Diego harbor, California, July 21, 1906. The basis of the alleged libel is an article which subsequently appeared in the Cosmopolitan magazine under the caption "Growth of Caste in America."

Due to Social Distinctions. The complaint sets forth that the article described the rivalries that had existed for years in the navy between officers of the bridge and the engine room, due to the change in social distinctions. The change was effected in 1890, when the staff and line were abolished and all the officers made to rank the same, was detailed in the article and further comments were made upon the changes at the naval academy which so altered its course of study that all cadets were taught the science of steam engineering. The result of this change, the magazine writer declared, was to place in the engine rooms of warships young officers with only a theoretical knowledge of motive power, the most essential part of the vessel.

Gross Neglect Charged. The article further stated, according to the complaint, that "boilers do not explode without gross neglect or gross incompetence," and in the magazine article's review of the accident this passage occurred:

"A young ensign, bookishly educated in engineering, stepped from the bridge to the engine room and tried the experiment of cutting out the steam gauge and plugging up the safety valve, and all these lives paid the penalty."

While Ensign Wade is not mentioned personally by the writer, he declares he is wrongfully made to appear as being responsible for the death of his shipmates.

OPERATIONS ON ISTHMUS

Detailed Report for June, Giving the Number of Cubic Yards of Earth Removed.

Washington, July 24.—The detailed report of the operations of the Isthmian canal commission on the Isthmus for June, last, was received today.

The excavation in the Culebra division was 88,596 cubic yards, against 69,365 cubic yards during May, and is more than three times the amount taken out in June, 1906. The report says that with 18,500 yards per shovel as the maximum output during the dry season, 16,000 yards per shovel cannot be considered a serious falling off when the excessive rainfall (13.4 inches) for June, is taken into account.

The excavation at Gatun amounted to 15,013 cubic yards and in the canal project 31,362 cubic yards was dredged.

The report of the department of labor headquarters shows the total working force on June 23 at 23,327. This is exclusive of the force employed by the Panama railroad.

The chief sanitary officer reports that out of 4,300 white American employees there were only four deaths during the month, and that out of about 65,000 whites other than Americans there were but fifteen deaths. Out of the 1,000 colored employees there were 72 deaths, making a total of 31 deaths in June, against 96 in May. Taking all deaths of employees together, only 12 deaths in June were due to what are considered climatic diseases—malaria and dysentery—and none of these occurred among the white American employees.

CURZON FREES HIS MIND.

Criticism of Great Britain's Government of India.

London, July 24.—Lord Curzon, chancellor of Oxford university, speaking at a banquet given in his honor tonight by the Grocers company, after expressing the opinion that the trouble in India is only skin deep, strongly criticized what he described as Great Britain's "unscientific method of administering the empire." He said that no country in the world had such a reserve of experience and authority in the art of civil government and made such little use of it. The colonial office, he said, was made up of permanent officials, many of whom had never set eyes on the colonies they administered and he asked why there should not be an imperial council of some kind to assist in their administration. He apologized for speaking in behalf of the great unemployed class to which he belonged, but expressed his thanks for the opportunity, saying that although he was unemployed he was not altogether extinguished.

Among the guests at the banquet were the American ambassador, Whiteley Reid, and the secretary of the American embassy, J. Ridge Carter.

ALIVE AND CONSCIOUS.

Frank H. Warner Realizes the Extent of His Crime.

New York, July 24.—Almost at the moment that his second victim breathed his last, Frank H. Warner tonight awoke to consciousness and a realization of his tragic acts of yesterday.

Warner, formerly a prosperous hatter, shot and killed Estlin C. Norling, who once had been his bookkeeper, and after a wild flight from the police, fired a bullet into the back of his intimate friend, John Wilson, a wealthy hatter, who died at St. Vincent's hospital tonight and as the news of his death reached Bellevue hospital, where Warner is a prisoner, the latter regained his senses. Warner was knocked down and badly injured by the crowd that captured him and he had since been in a comatose state.

Police Commissioner Bingham today suspended three policemen who failed to arrest Warner after he had killed Miss Norling.

KANSAS MAN HEIR TO IMMENSE FORTUNE

Salina, Kan., July 24.—Philip Moore of this city has just learned of his father's death in Wyoming and that he and his sister, Mrs. T. Carroll of Denver, are the only heirs to what they say is a large fortune left by the deceased.

Thomas Moore, formerly a resident of this county, deserted his family nineteen years ago. Fourteen years ago he was heard from indirectly for the last time. Mrs. Carroll in reading a paper last week read the obituary of Thomas Moore and immediately corresponded developed the fact that the deceased was her father. The fortune was made in mining and the cattle business. Philip Moore and his sister will go to Wyoming early next week to claim their estate.

OGDEN NEWS

Office, 2484 Washington Avenue.

Ogden, Thursday, July 25.

PIONEER DAY CELEBRATION

Business Is Stopped and Citizens Seek a Cool, Shady Spot.

Pioneer day was generally observed in Ogden yesterday. In the city property there was no formal celebration, although North Ogden and Huntsville had an old fashioned time that was participated in by many Ogden people. All of the city parks and other resorts did a rushing business all day. The grocery stores and butcher shops closed at noon. Other stores were closed all day.

As usual, there were a large number of sporting events scheduled for the day. The first were the baseball games at Glenwood park. The first game was scheduled for 10 o'clock in the morning, but was called off on account of the small crowd. The game in the afternoon resulted in a victory for the locals. Horse races were held at the Wasatch driving park and attracted quite a few people. The fight last night between "Cyclone" Thompson and Peter Sullivan was the main feature of the day and attracted the largest crowd. There were balloon ascensions and other amusements at all of the parks. The canyon attracted quite a few people and the resorts were also well patronized. The weather was warm and sultry in the city and many people took advantage of the occasion to get out in the country for a cool breath of air.

Ogden Briefs.

TWO FALSE ALARMS.—Two false alarms were turned in to the central fire station yesterday morning from boxes on the bench. The work is supposed to have been that of a drunken man.

RAILROAD MEN IN TOWN.—W. S. Martin, assistant general manager of the Denver & Rio Grande, and J. M. Davis,

CASE GOES TO SUPREME COURT

Controversy Over Rate Law of North Carolina to Be Settled for All Time.

Asheville, N. C., July 24.—A special from Raleigh received here this afternoon states that an important conference was held there between Governor Glenn and the counsel for the state. Governor Glenn stated he had nothing to give out, but admitted that another conference would be held tomorrow morning, at which he expected Attorney General Sanford to be present.

The peace propositions submitted by Mr. Sanford to Governor Glenn are as follows:

First, that the injunction suit should be speeded and gotten ready for final hearing at once.

Second, that habeas corpus cases dealing with the railroad should be carried to the United States supreme court by appeal.

Third, that the Green case at Raleigh, in which the Southern railway was fined \$30,000, should be carried by the railway company to the supreme court of the state at once, and if that court should affirm the judgment of the superior court the railway company should sue out a writ of error from the supreme court of the United States and carry the case to the latter court; that these three cases present every feature of the controversy which has arisen and is now agitating the public mind with regard to the recent rate law of the legislature.

Fourth, that all future proceedings under the rate law in the state court should be suspended until the supreme court of the United States can render final judgment, settling the controversy.

The state advocates stated tonight that the federal court cannot escape a violation of the federal statute, which prohibits its a federal court from granting an injunction against a state court. They say that it is too clear now to admit of question that Judge Pritchard has already done what amounts to a violation of the federal statute.

CHANGE IN PROGRAM.

Roswell, N. M., July 24.—Captain George B. Curry, who was to be inaugurated governor of New Mexico on Aug. 1, today received a telegram summoning him to Washington for a conference with the president. He leaves tomorrow morning. All inauguration plans have been changed.

DEATH BY SHOOTING.

Chicago, July 24.—George B. Ross, at one time proprietor of some of the leading hotels in this city, today committed suicide by shooting.

Rich Armenians Blackmailed by Society of Murderers—Alarming Conditions.

New York, July 24.—The district attorney's office obtained today a number of letters in connection with the murder of the rug merchant, H. S. Tavashanjan, who showed that for several months there have been communications sent to rich merchants in this city demanding that amounts of money be sent to the Hun-chakist society in pain of death. The letters confirm the reports of a wide-spread conspiracy to get money and which the district attorney thinks is alarming.

One of the Armenians who had been greatly frightened by the letters of the Hun-chakists is Armen P. Aleon, a rug importer. He received a letter last March demanding that \$10,000 be paid to the Hun-chakists at once if he wished to escape the fate of his father.

Aleon's father about three years before had gone on a trip to Persia. On the journey he was held up. The son does not know whether the brigands got any money from the father, for when he returned to America he was a raving maniac and died within a month without being able to tell anything about his experiences. Police Commissioner Bingham stated today that for a long time he had known of Armenians who were blackmailing rich merchants.

The coroner's jury today returned a verdict holding Bedros Hamptoomian, who killed Tavashanjan, on a charge of homicide.

AMERICAN FLAGS RAISED.

Ottawa, Ont., July 24.—Two American flags today were used with the Union Jack and other decorations in connection with a carnival. A committee of citizens has ordered the Stars and Stripes removed. The reception committee thought it best to do this rather than have any trouble over the matter.

THIEVES STEAL PIZZ WATER.—For the second time within a month thieves with an appetite for champagne broke into a Rio Grande Western freight car on Tuesday night and stole a case containing two dozen bottles of the sparkling fluid. Some of the empty bottles were found in the jungles and the rest were carried away by the thieves.

THROWN FROM BUGGY.—Mrs. Olive Anderson, residing at Five Points, while driving home Tuesday night was thrown from her buggy. She was rendered unconscious, but was not seriously injured. A piece of paper which blew in front of the horse frightened the animal so that it collided with another horse.
